	I <b>completed</b> the learning activities in the gallery. I <b>participated</b> in the discussions.				
	I <b>shared my opinions and ideas</b> about the artwork we saw in the gallery.				
	I <b>asked questions</b> about the art I saw..				
	The art I saw in the gallery was the inspiration for the work I created.				
	There is a connection between the art I saw and one of the following: a personal experience, a story I've read, something that happened in the world, another school subject, or my culture.				
	I carefully <b>followed the direction</b> of the Gallery Educator regarding techniques and how to create the art. <i>I used the art tools and materials appropriately and with respect.</i>				
	In my artwork, I used <b>some of my own ideas</b>				
	If I got stuck, I <b>used new ideas of my own to improve my work</b> until I was pleased with the end result.				
My artwork is my own and well thought out. People can <b>see a message or main idea in my art.</b>
